

I would like to recommend Santee Elderly Care to anyone looking for a "board and care" place for a parent or oneself.

In Aug. 2015 I needed to find a place rather quickly for my mother. After visiting several board and care facilities in east county, we found Tom's place his sister, who has a similar place a few houses down the street. It impressed me right from the start. The house was like a home, immaculate, with a wide, open feeling and private rooms. Everything smelled clean and fresh. Tom had a room available with a large window facing the street and a private bathroom. He let us put pictures and calendars on the walls so Mom would feel more at home.

As time passed by, I got to know Rosa and Daisy, two caregivers well-qualified to handle all of my mother's many needs. They were able to work with her schedule of being moved, resting and eating. I was able to just walk in and visit Mom every day. The caregivers were willing to talk with me and provide information as to how Mom was doing.

Tom, the owner, would often come in to say "hi" to Mom and visit with her. He treated her and the other residents like family. High standards were maintained for the running of his place, and he expected the same from his employees.

The food was fresh and tasty, adapted to each of the resident's needs. There was a nice variety and the meats were well-balanced.

Mom stayed a little over a year, and as the end came, she continued to receive the best of care.

I would highly recommend this place. You will be glad you chose Santee Elderly Care.

Sincerely, Jolene Korpan
